

PEST-STOP

Serious about pest control

Crawling Insect Freeze Spray

Introducing our powerful insect spray, perfect for eliminating a variety of household pests including cockroaches, spiders, silverfish, bedbugs, fleas, their larvae, and eggs.

Our specially formulated solution is designed to effectively target and eradicate these unwanted guests from your home.

GUIDANCE FOR USAGE

- This versatile spray is perfect for indoor and outdoor use, making it ideal for areas like kitchens and bedrooms where insecticides are not preferred.
- It is safe to use in rooms where children or pets reside, but they should be kept away during application.
- The spray can be applied into cracks and crevices, but it is advised to spray directly on the insects themselves.
- It is not recommended for use as a preventive or post-treatment measure.
- Crawling insects are immobilised and will eventually perish after coming into contact with the spray.
- Dispose of insects by placing them in the green bin along with other organic waste for easy cleanup.

- ✓ Insecticide-free
- ✓ Non-toxic
- ✓ Odourless
- ✓ Stain-free
- ✓ 360° spraying
